

## FUND RAISING WITH JOE'S BARBEQUE

Throughout the year, Joe's Barbeque works with church groups, charitable organizations, youth groups and various school organizations providing them the opportunity to purchase a variety of Joe's great products in order to assist them in their efforts to raise money.

The plan is simple. First, each group or organization interested in raising money selects a product(s) for their individual fund raiser. Next, the Group selects a sales price for the item(s) and then pre-sells them to individual customers. Once the orders have been taken, Joe's cooks each item, packages the product and delivers them in individual boxes for easy distribution to the customers.

Fund raising with Joe's is easy and a great way for organizations to raise money!

**"Best Fundraiser I've ever done! We decided we needed to earn money for our booster club and Joe's Barbeque was exactly what we needed. They guided us from the start and even produced a form to help me stay organized. They were available for questions throughout the process. We will definitely be doing this event again. Thanks!"**

**"As President of the Alvin High School Band Booster Club, I would like to extend deep gratitude to Mr. Joey Saladino Jr. for all his support in our fundraising efforts over the past year. Mr. Saladino even went great lengths to ensure that the fundraiser was specifically tuned to the organization's needs and worked with us on the products we would like to feature in each fundraiser. I would highly recommend Joe's Barbeque for your fundraising needs, as they have made our fundraisers easy and vastly profitable."**

**"Partnering with Joe's Barbeque for the Chamber's fundraising project was one of the most practical and proves to be one of the most profitable activities for our organization. A profit is turned from the moment the first item is sold. What's more, this project, unlike some others, allows the Chamber to capture a large and diverse market – anyone who loves great food or who would like to give a gift of great food. The sky is the limit."**
